Kutlass® PU500

High ISO Cut C liner with hardwearing, flexible PU palm coating.

This Cut Level C glove is knitted from high cut resistance fibres blended with soft nylon and other synthetic yarns to produce a very dextrous and comfortable glove. The glove is further enhanced with an extremely light and flexible polyurethane palm coating offering good mechanical protection in dry handling situations. The breathable liner reduces perspiration and works in conjunction with the Sanitized® hygiene function to increase comfort, freshness and odour repellence throughout use.
