

# Anti-needle 5

WHEN THERE IS ONLY A GLOVE BETWEEN YOUR HAND AND A NEEDLE...YOU HOPE IT IS THE BEST!

## DESCRIPTION

- The patented "Antineedle 5" is a 10 gauge fully coated anti needle glove.
- The glove offers both cut and puncture protection from hazardous objects. E.g. nails, wire, glass fragments, metal shards, wood splinters and needles.
- The glove has been designed to enable a user to work in areas where there are risks of finding discarded syringes.
- The glove offers puncture protection in the palm and fingers. The crinkled latex coating offers excellent grip, and suitable for use in wet and dry environments. The back is breathable which offers some comfort to the wearer.
- The gloves are lined with 10 layers of stainless-steel fabric, thus providing excellent puncture resistant to pointed surfaces such as needles.

## RECOMMENDATION
